

World Maths Day Meet our Ambassador Olivia

School: Hamilton College
Age: 11
Fav Sports: Horse riding
Fav Music: Pop - Miley Cyrus and Cheryl Cole
Hobby: Playing the guitar
Likes: Olivia likes drawing manga cartoons at her local art studio. She loves competing against young people from all over the world in maths! Olivia's advice is "Play hard, play fast, play smart! Most of all take part! If you are not in it - you can't win it."

Hi I'm Olivia one of the new UK WMD Ambassadors! I go to Hamilton College and am very proud and thrilled with my new Ambassador role!

I have a team rearing and ready to go. They consist of Erin, Sharan, Mary and Michael and we're all really excited about getting stuck in! My team and I are in the midst of our plans for the event so I am not ready to reveal anything just yet! However we have been sticking posters at local places like sports centres and shopping centres. We have been interviewed and have had our photos taken by the local newspaper! We are hoping to go live with Burkina Faso in Africa and encourage them to participate in WMD too! We are going to visit local schools and spread the word about World Maths Day to make this a record breaking event!

We may have had extreme cold temperatures in Scotland this winter but it's definitely heating up at Hamilton College! I have just announced that whoever can come up with the most impressive place to put a poster shall win a prize! We have had some brilliant suggestions already! I hope to see lots of people from the UK in that Hall of Fame! So tell all your friends and family to join us at World Maths Day and help represent your country's team in this global event!

Wherever you are, whatever country you are representing ***Good Luck!***

World Maths Day 3rd Match 2010

Please join in World Maths Day at:

www.worldmathsday.com

Junior school children should use their current Mathletics log-in details.

Parents who wish to take part in the Challenge are able to register by accessing the web site detailed above.
